

SETUP INSTRUCTIONS

Step 1: Inflate your Air Bunkers

- 1.1 Remove your Air Bunkers from the Container Bin and unfold them completely. Lay them flat on the floor, making sure there are no creases or folds in the material.
- 1.2 Locate and open the inflation valve at the base of the Air Bunker. The inflation valve is a white plastic opening with the screw on cap.

- 1.3 Locate the provided Air Pump and attach the plastic nozzle to the front of the Air Pump.

- 1.4 Insert the nozzle from the Air Pump into the valve and start pumping. Fill the bunkers approximately 80%. **DO NOT OVERINFLATE THE BUNKER**

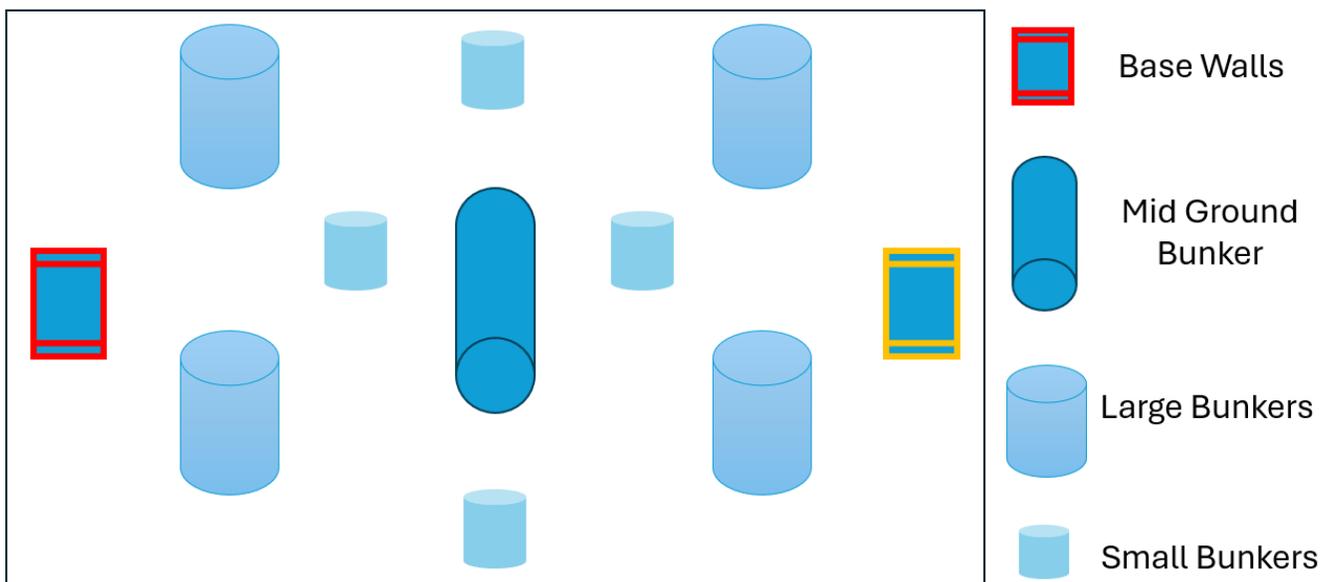

- 1.5 Once the Bunker is inflated to your liking, quickly remove the air pump nozzle and close the valve by screwing the top cap on.
- 1.6 Close the Protective Flap on the Bunker.

Step 2: Setting Up your Air Bunkers

- 2.1 Distribute Air Bunkers across an open space in symmetric pattern to create a Game Field. (Approximately: 40 feet by 60 feet)

GAME FIELD

2.2 Secure Bunkers to the Ground with provided Screw Ground Anchors

or

Secure Bunkers on the Ground with provided Sandbags.

STEP 3: Setup the Table

3.1 Unfold Plastic table and cover with the provided tablecloth.

3.2 Place all provided Containers & Baskets (Safety Goggles, Vests, Blaster & Darts) on the table for easy access.

STEP 4: Deflating your Air Bunkers

4.1 Attach the plastic nozzle to the top of the Air Pump

4.2 Open the inflation valve at the base of the Air Bunkers, start pumping.

4.3 Carefully Roll or Fold the Air Bunkers and place them in to the bin.

4.2 Place all provided Material and equipment in to Containers & Baskets.
